With pristine lakes nestled at the foothills of the Blue Mountains, Lake Wynonah has become a sought-after community of stunning full-time residences and delightful vacation homes... a gated community in which to live or unwind.

Requests abound for a lifestyle resource to easily locate important services, find destinations to share with family and friends, and shop for pleasure as well as necessity.

The majority of Lake Wynonah property owners are full-time residents. Those who commute for employment, seek services, or shop regional stores often travel an estimated 5 to 50-mile radius from the community.
